Your feedback, applied

19 screens updated after your notes of 3 November. Colours and fonts are still placeholders until the brand files arrive; outlet names and figures are sample data. The landing page waits for branding, as agreed.

November 2026

What changed

Your feedback point by point

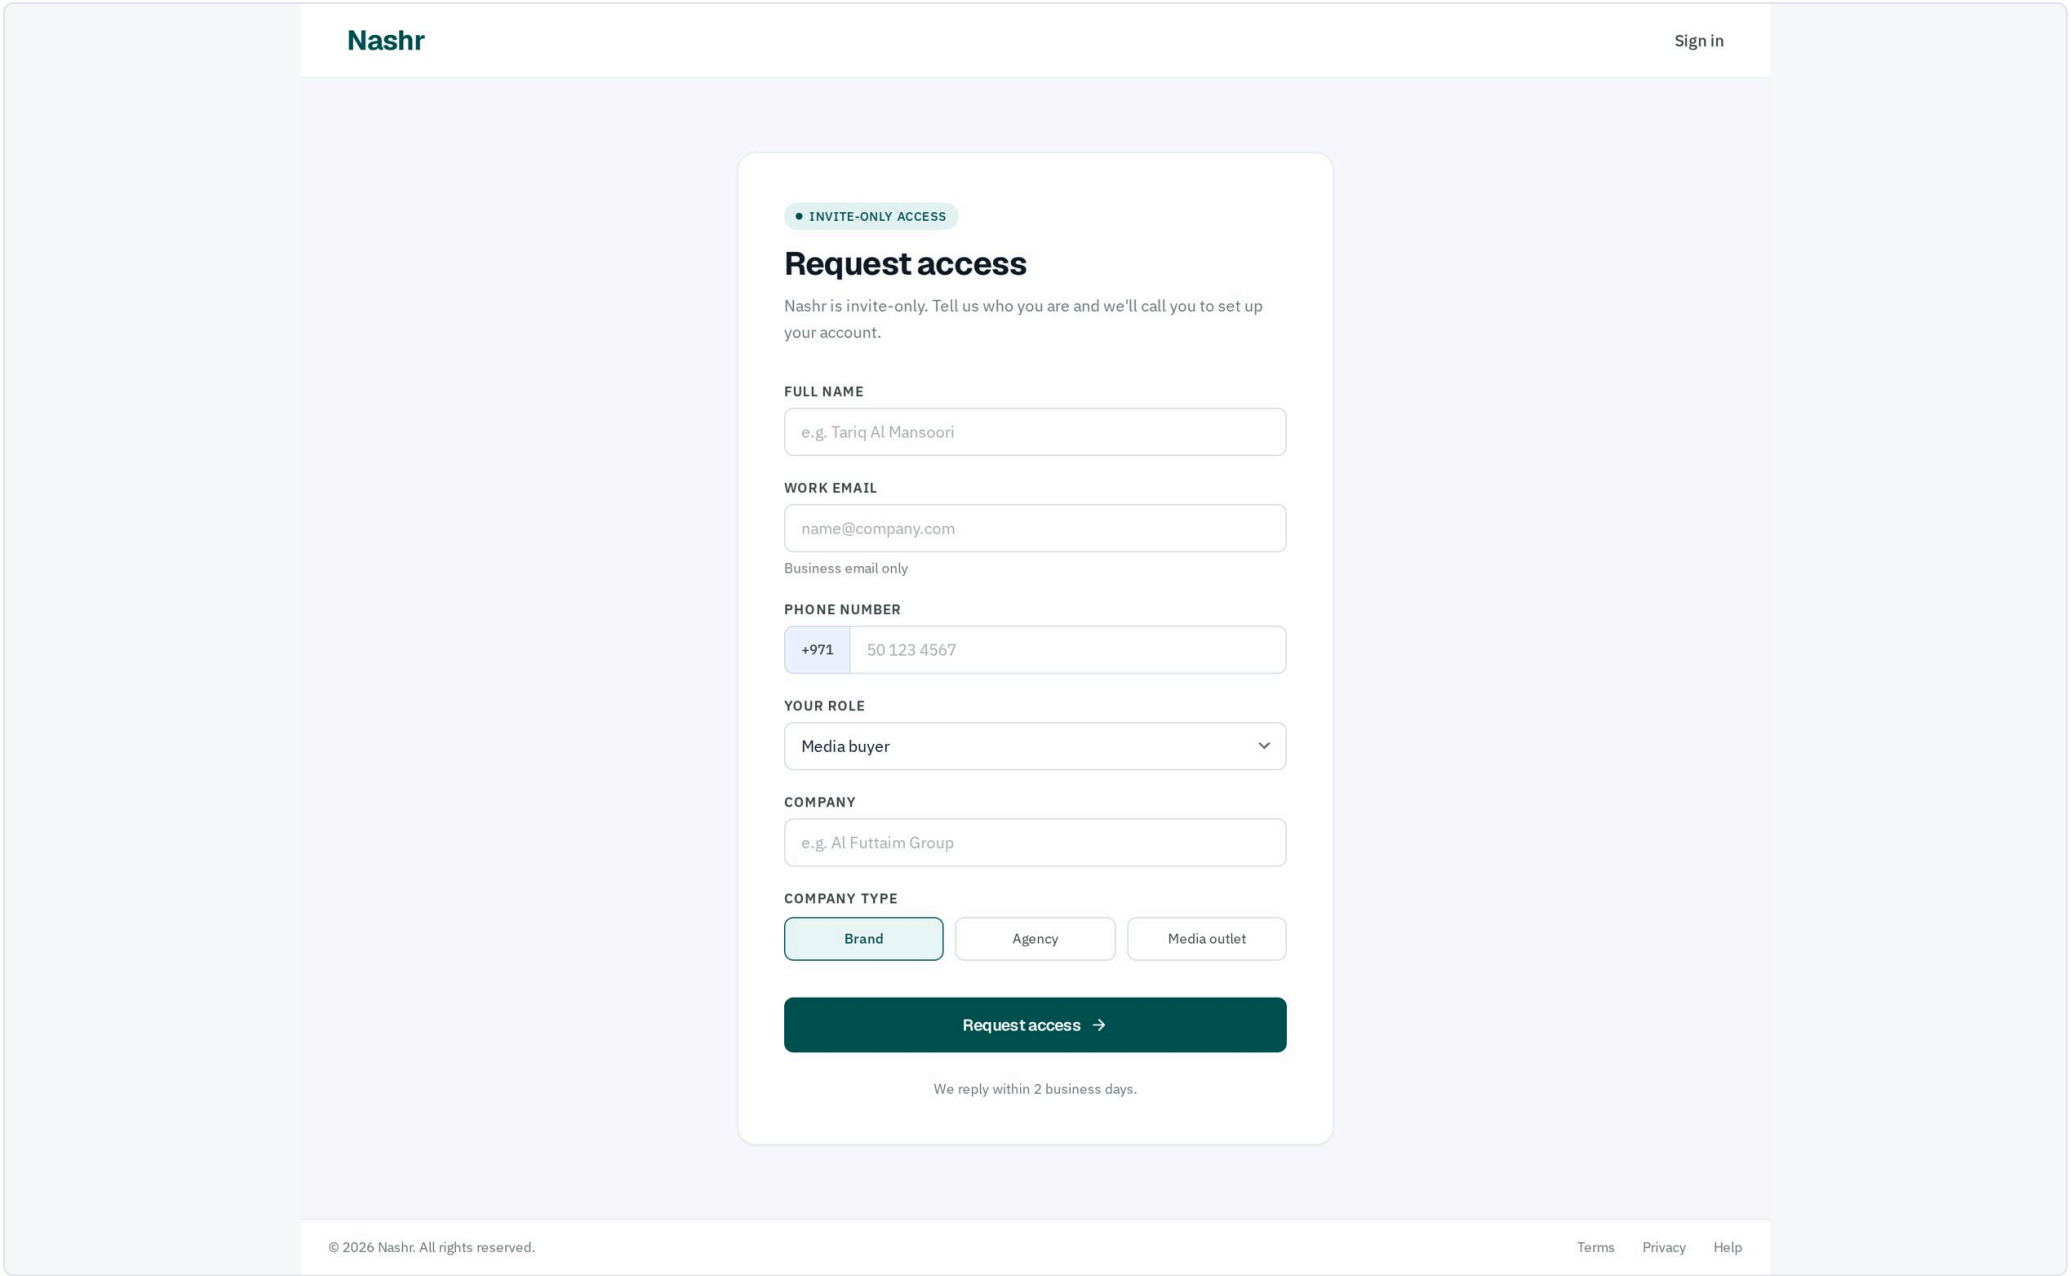

Landing	Finalised after branding; KSA left off. Request access reduced to five fields.
Calendar	Day, Week and Month views like Google Calendar, for buyers and sellers. Auction (gavel) and Quick sale (lightning) shown the same way everywhere.
Bid drawer	Auto-bid added. Suggested bid and recent prices hidden until we have data.
Payment	BPA-type claims removed; wording now "You'll be asked to pay once the publisher accepts"; insertion order shown as "Order".
Directory	Kept, with list and grid. Saudi Arabia and DOOH removed. Storage cost is negligible (a few thousand text rows), so we recommend keeping it.
Outlet profile	Publisher logo with initials fallback; response time and on-time % hidden; publishers can request a new sector.
Seller calendar	Regular calendar view added next to the programme view.
Adding placements	Every ad break is its own slot, plus 'any break' and a package of all breaks; podcasts by pre-, mid- or post-roll. Deadlines now fit: bidding closes 5 days before air for radio and TV.
Operations	View-only access to any publisher or buyer account, logged. Commission per publisher in Settings.
General	UAE weekend Sat–Sun. Same top bar on every screen. Nothing says "On Nashr" unless the outlet has signed.
Invoicing	Nashr invoices only the publisher for its commission; VAT on it is a switch, off until Nashr registers. The publisher invoices the buyer (upload, or we generate it in their name and TRN). Buyers get a receipt; publishers a payout statement.
Missing	Publisher onboarding with rate card upload, and the seller dashboard, added.

Three quick questions

1. Week view "time slots on the right-hand side": we used Google's layout (times down the side, days across). Is that what you meant, or a right-to-left layout?
2. "Any break" and "all breaks" packages: does the seller set a separate price for each option, as shown?
3. Sector requests: should a new sector go live straight away, or after we approve it (our suggestion)?

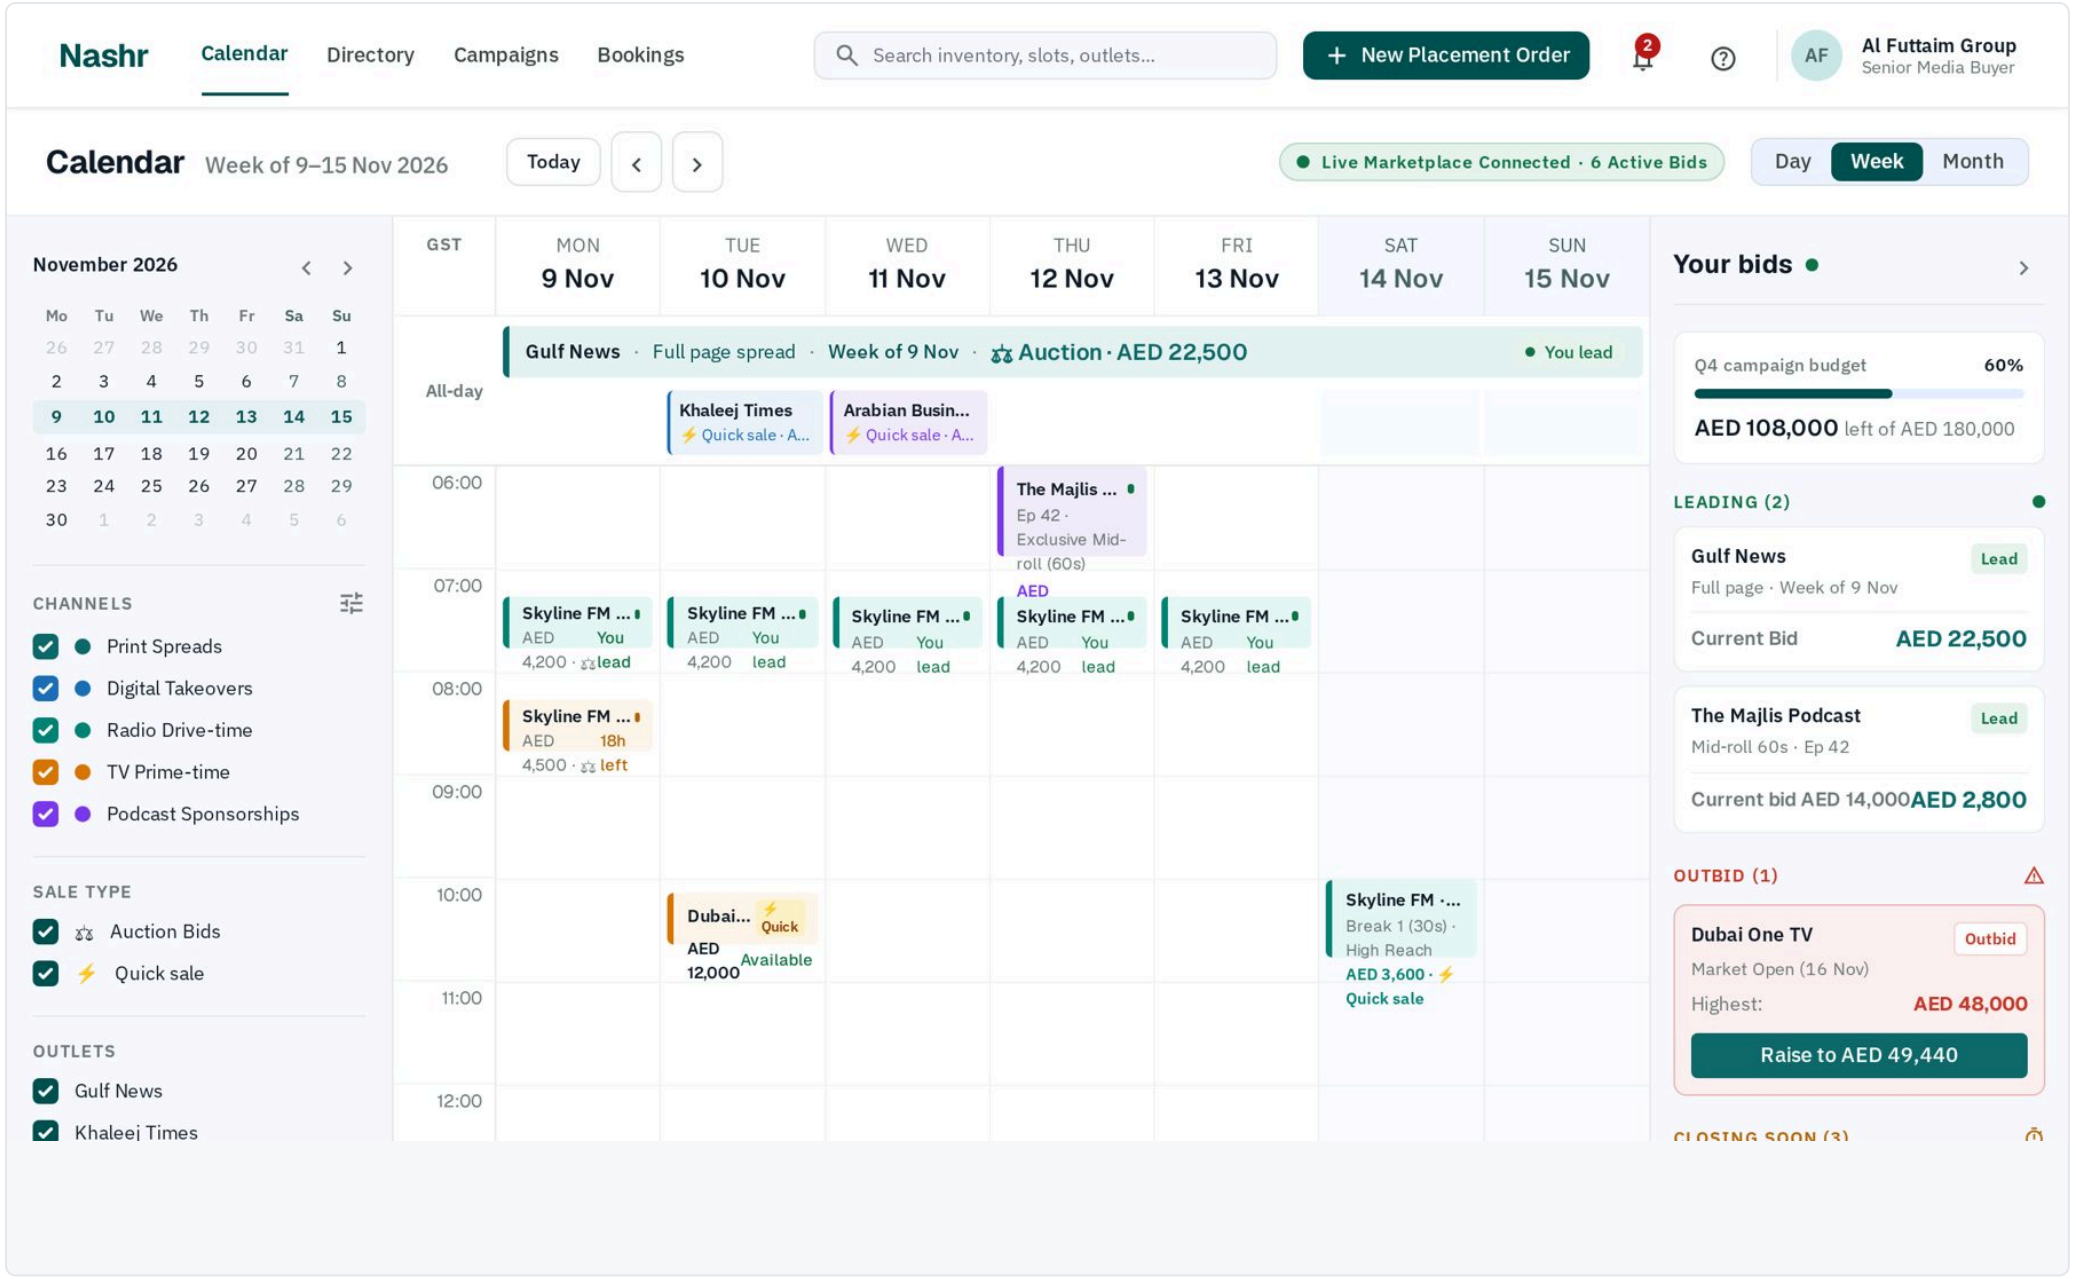

1. Request access

Public · Name, work email, phone, role, company. Onboarding on a call.

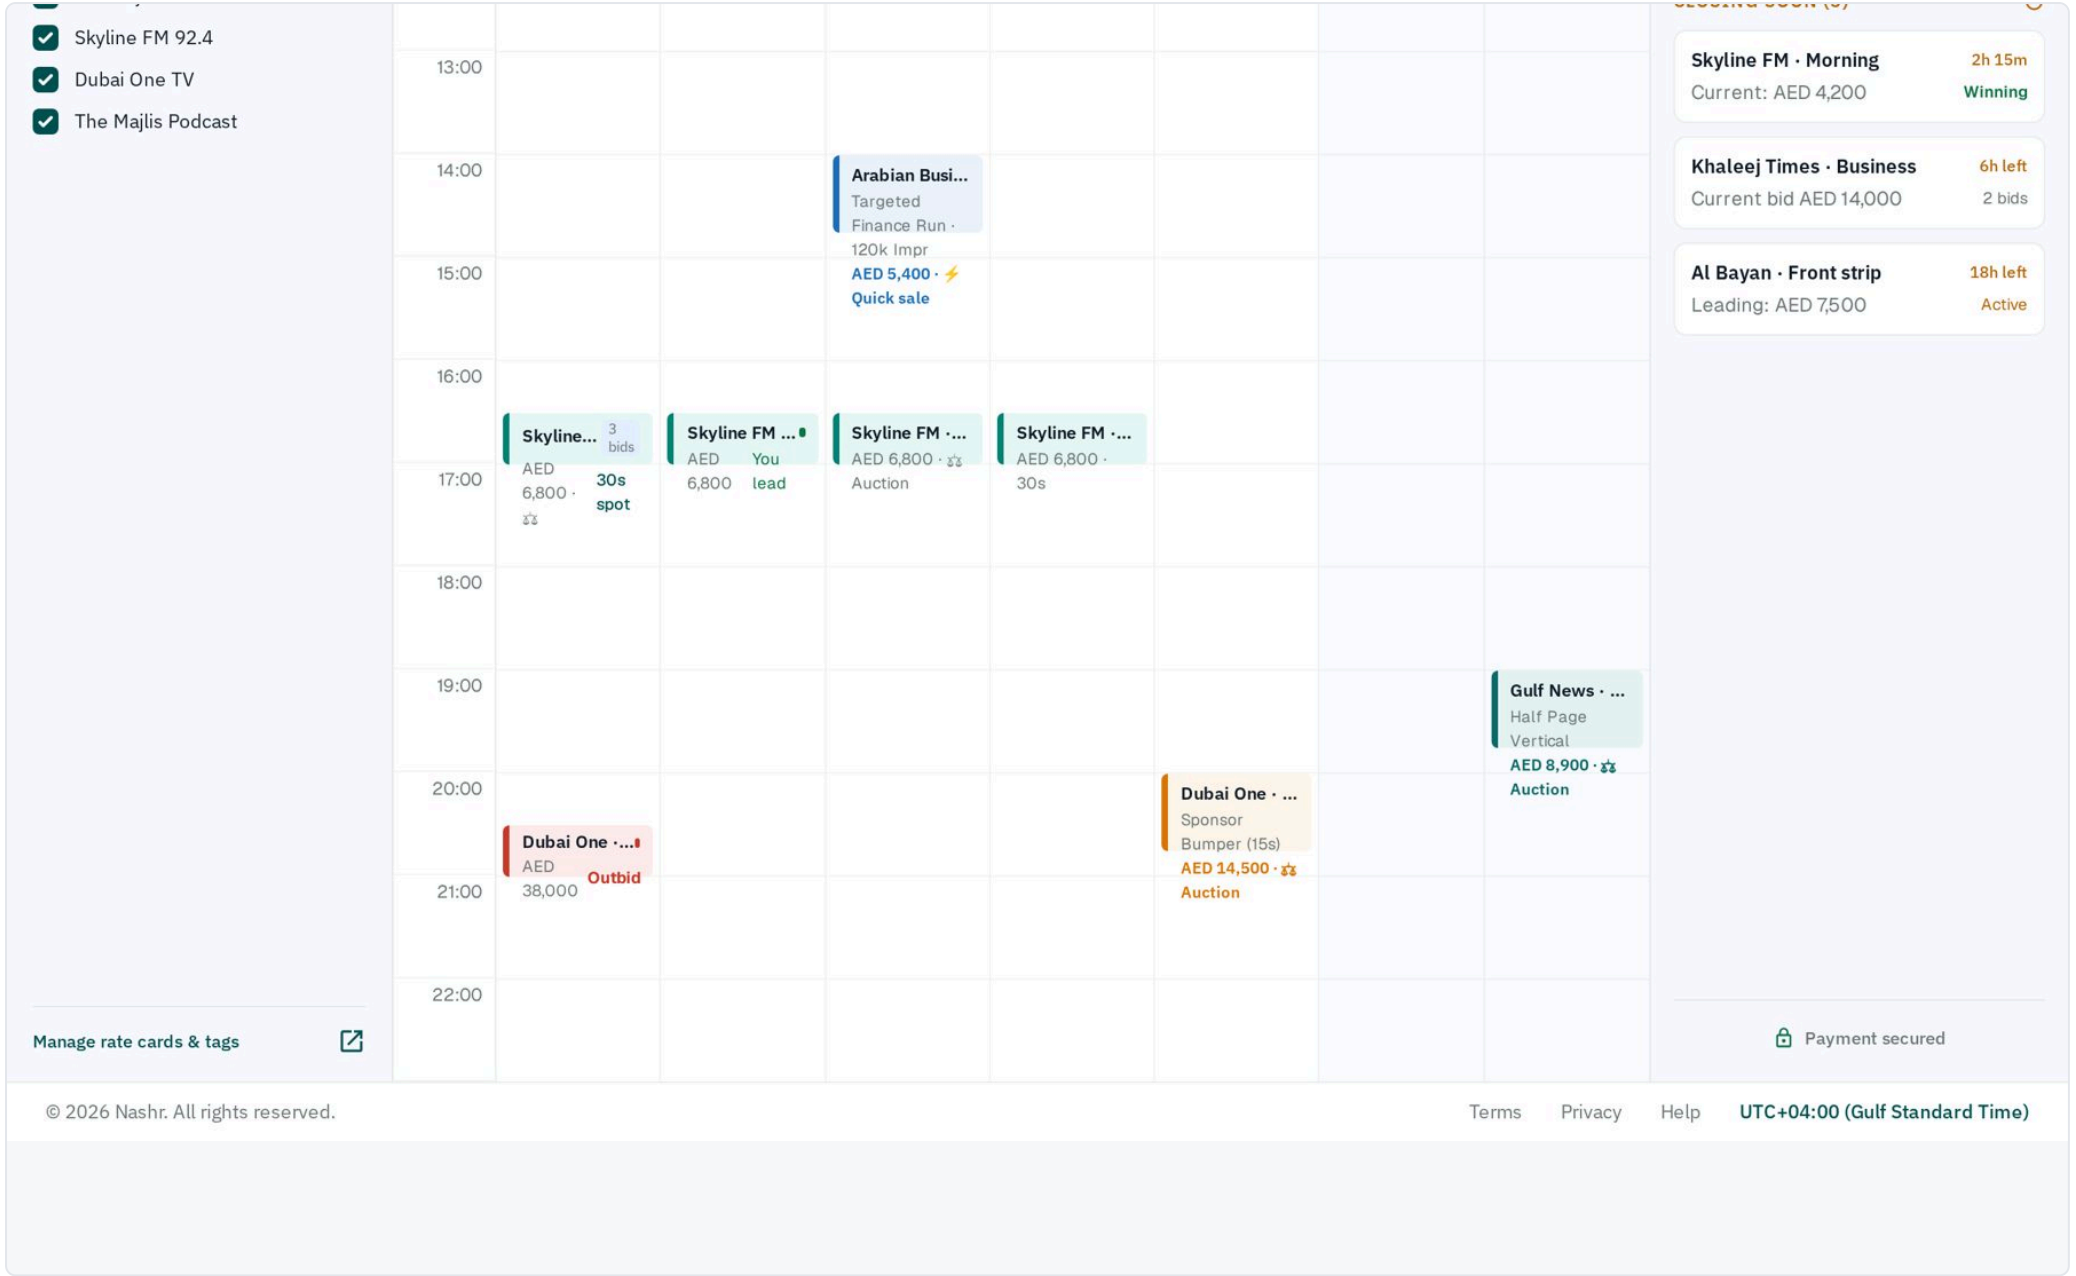

2. Calendar · Week view (1 of 2)

Buyer · Google Calendar layout: days across, time down the side, all-day lane for print and digital.

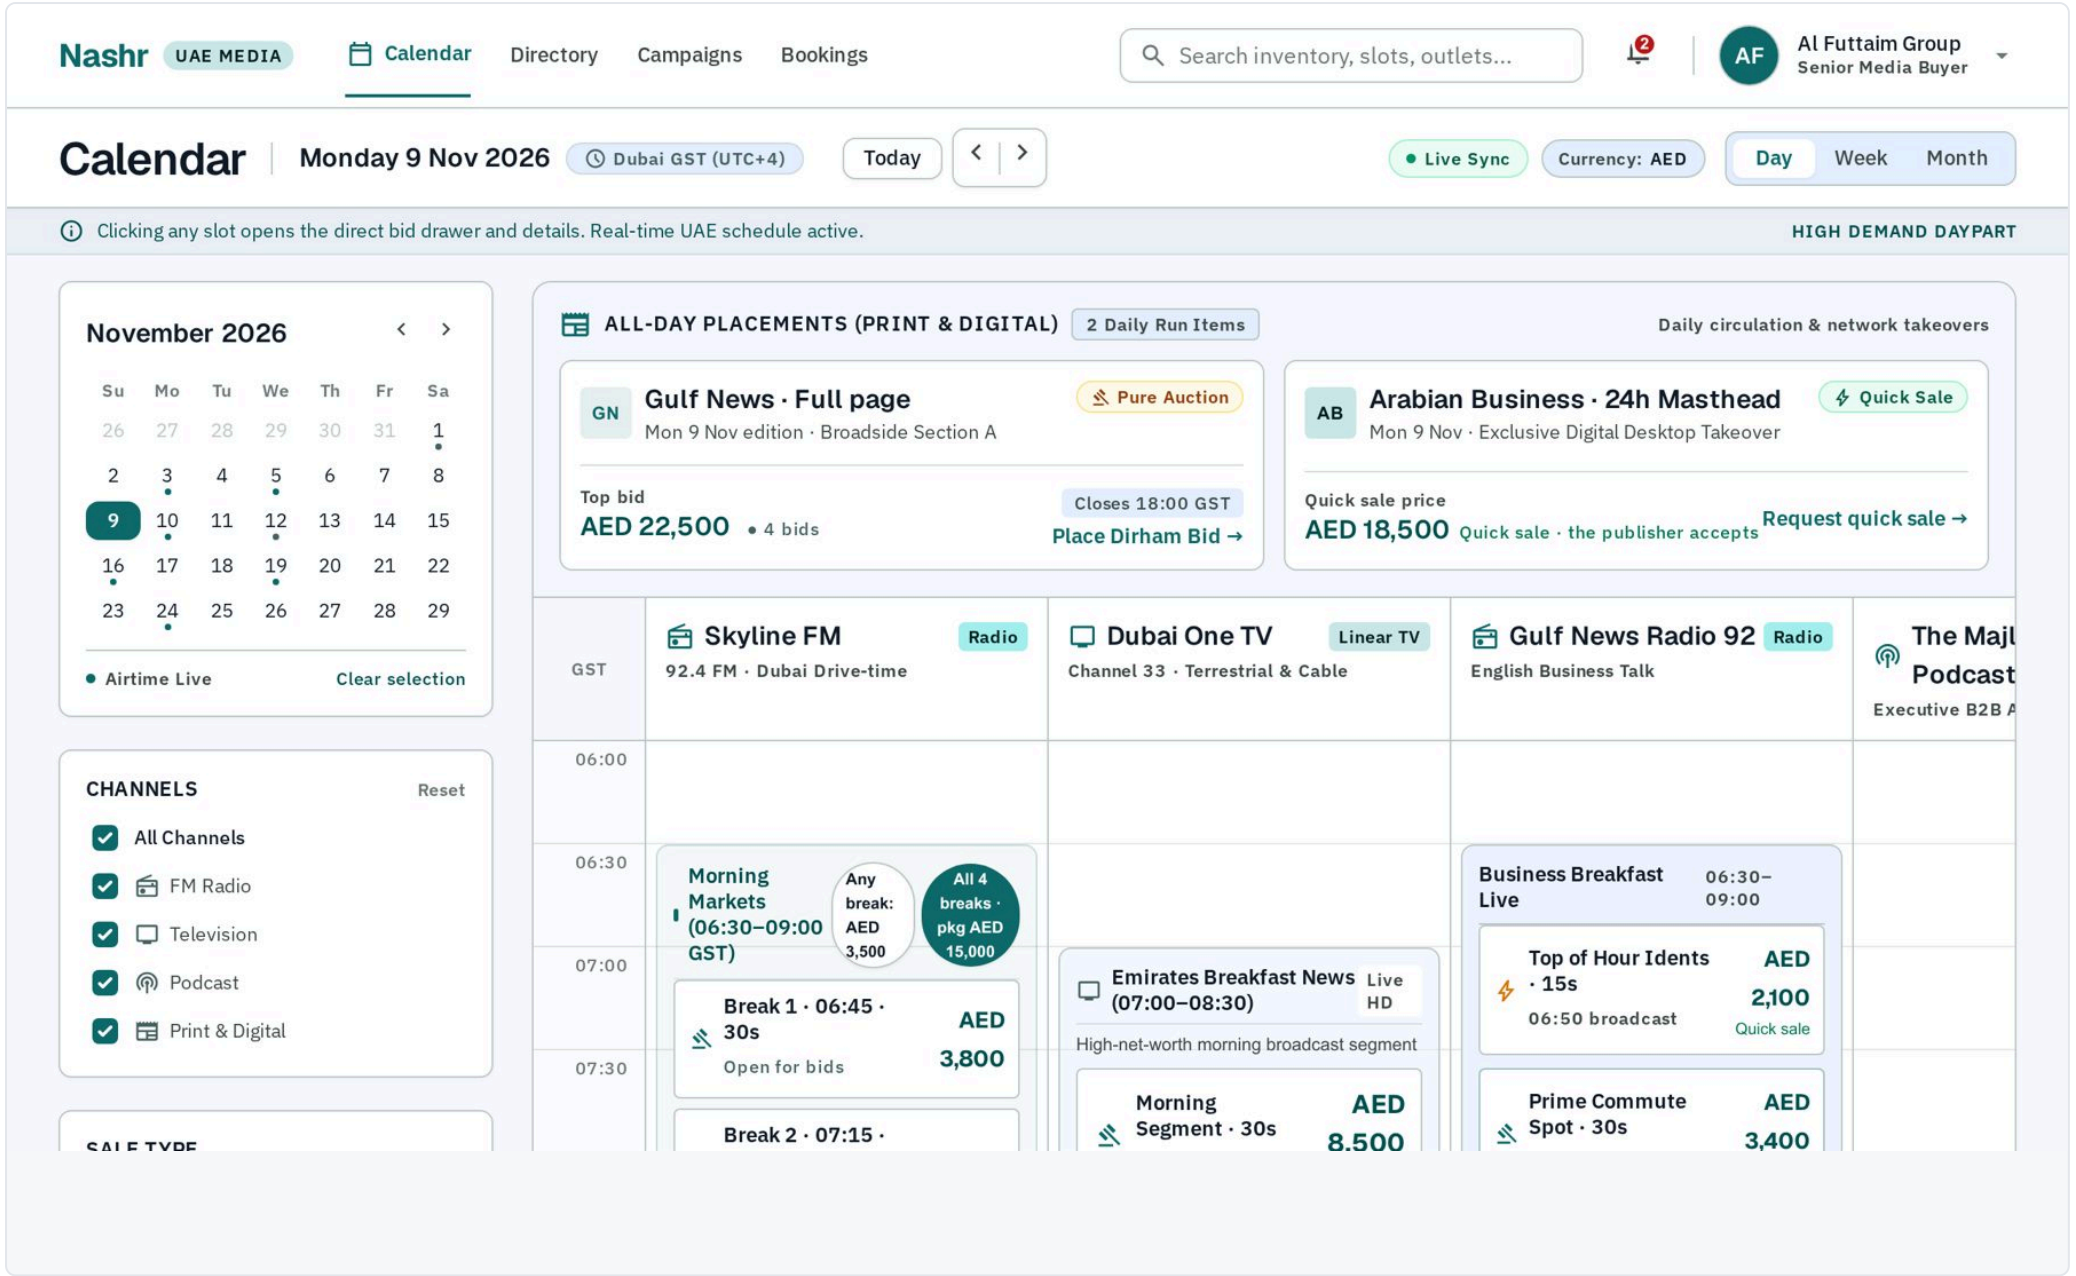

2. Calendar · Week view (2 of 2)

Buyer · Google Calendar layout: days across, time down the side, all-day lane for print and digital.

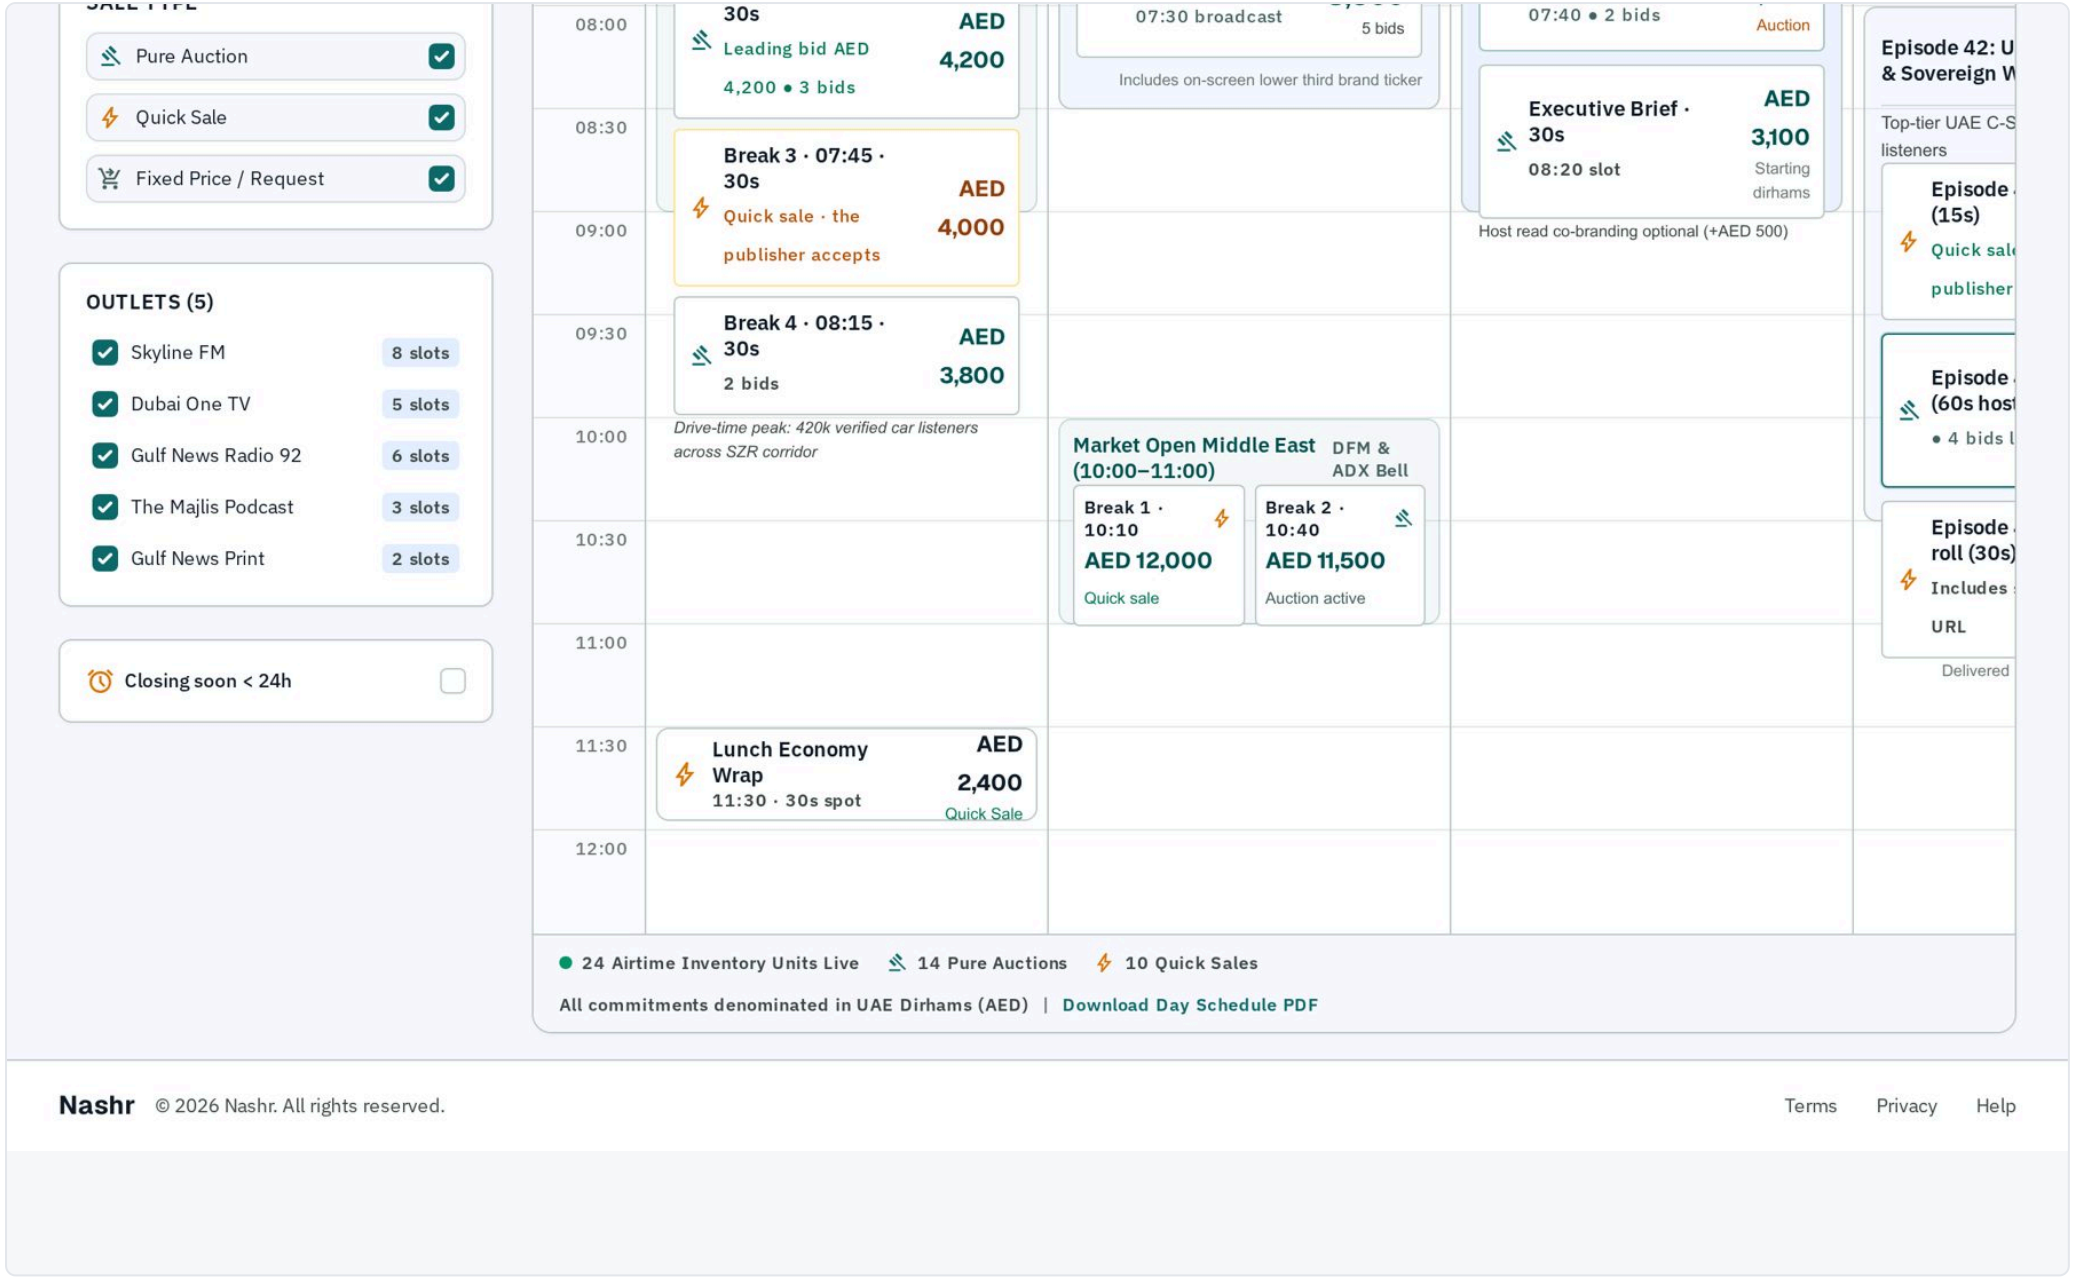

3. Calendar · Day view (1 of 2)

Buyer · Half-hour rows; each ad break is its own slot; 'any break' and 'all breaks' options.

3. Calendar · Day view (2 of 2)

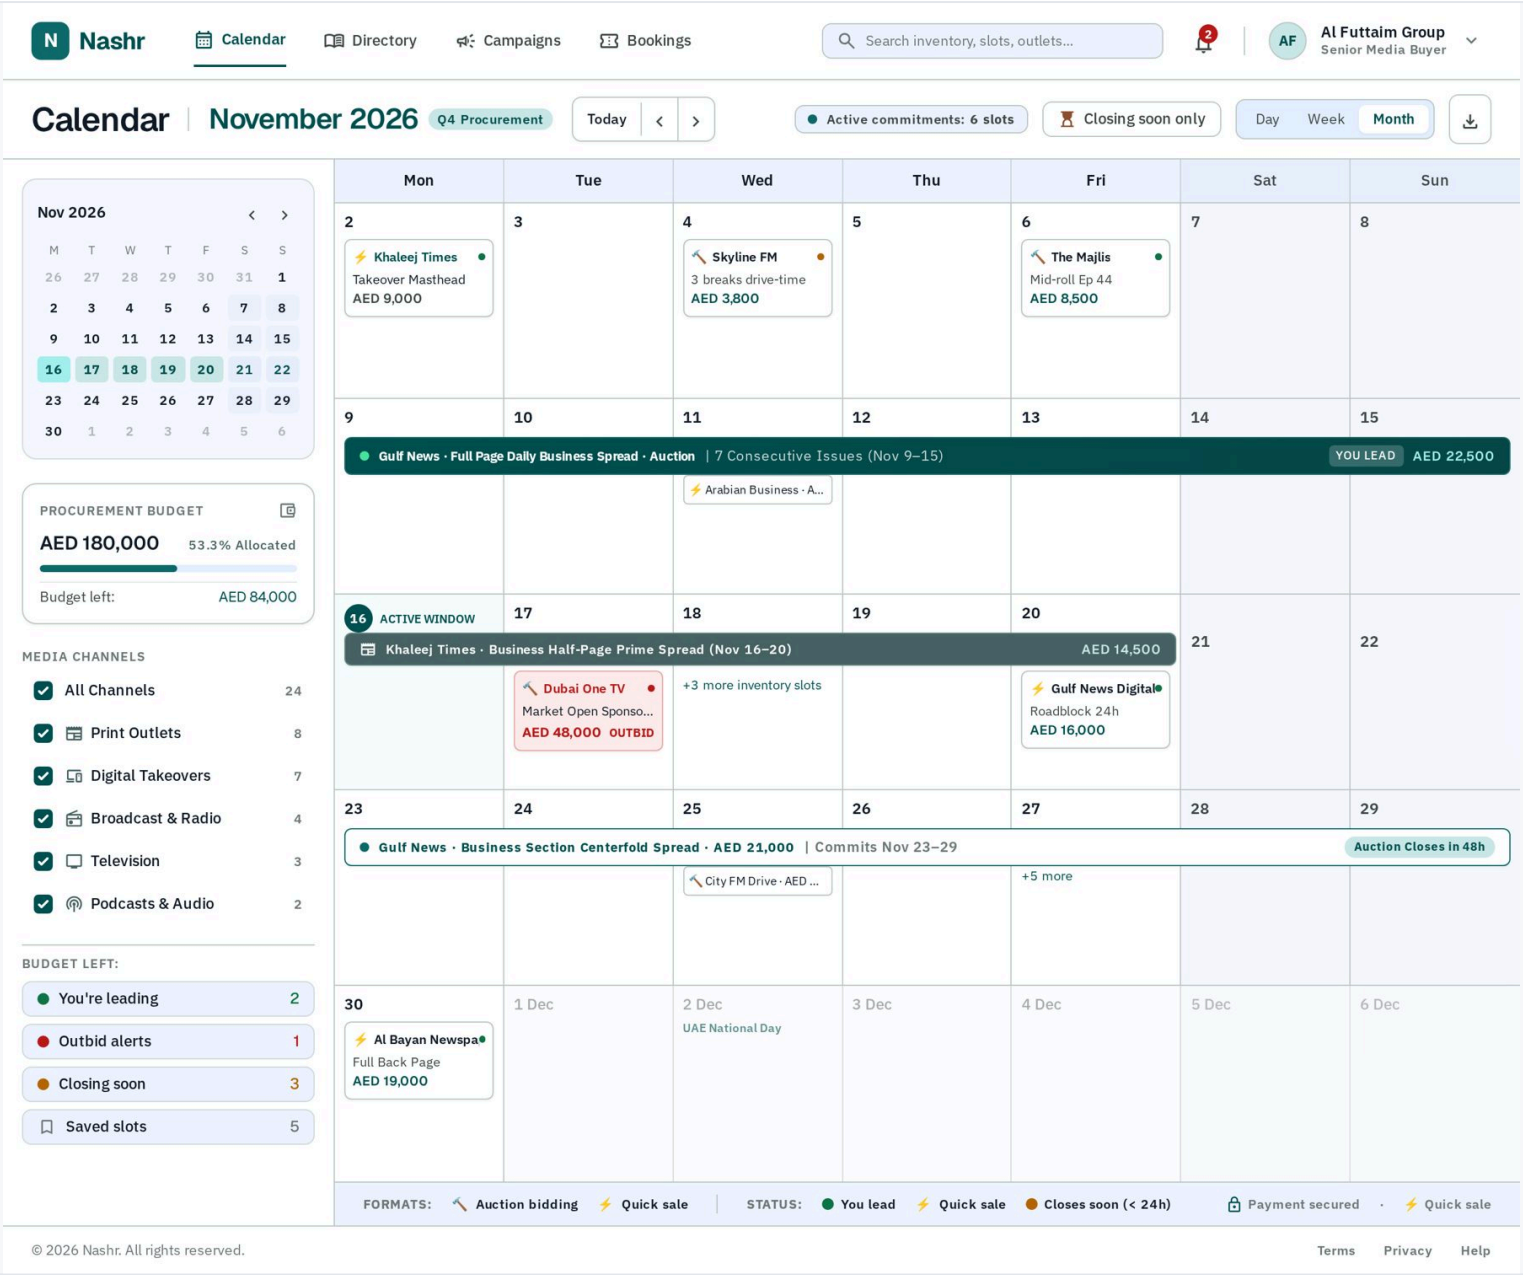

Buyer · Half-hour rows; each ad break is its own slot; 'any break' and 'all breaks' options.

4. Calendar · Month view

Buyer · The four weeks of the month; week-long print items as bars.

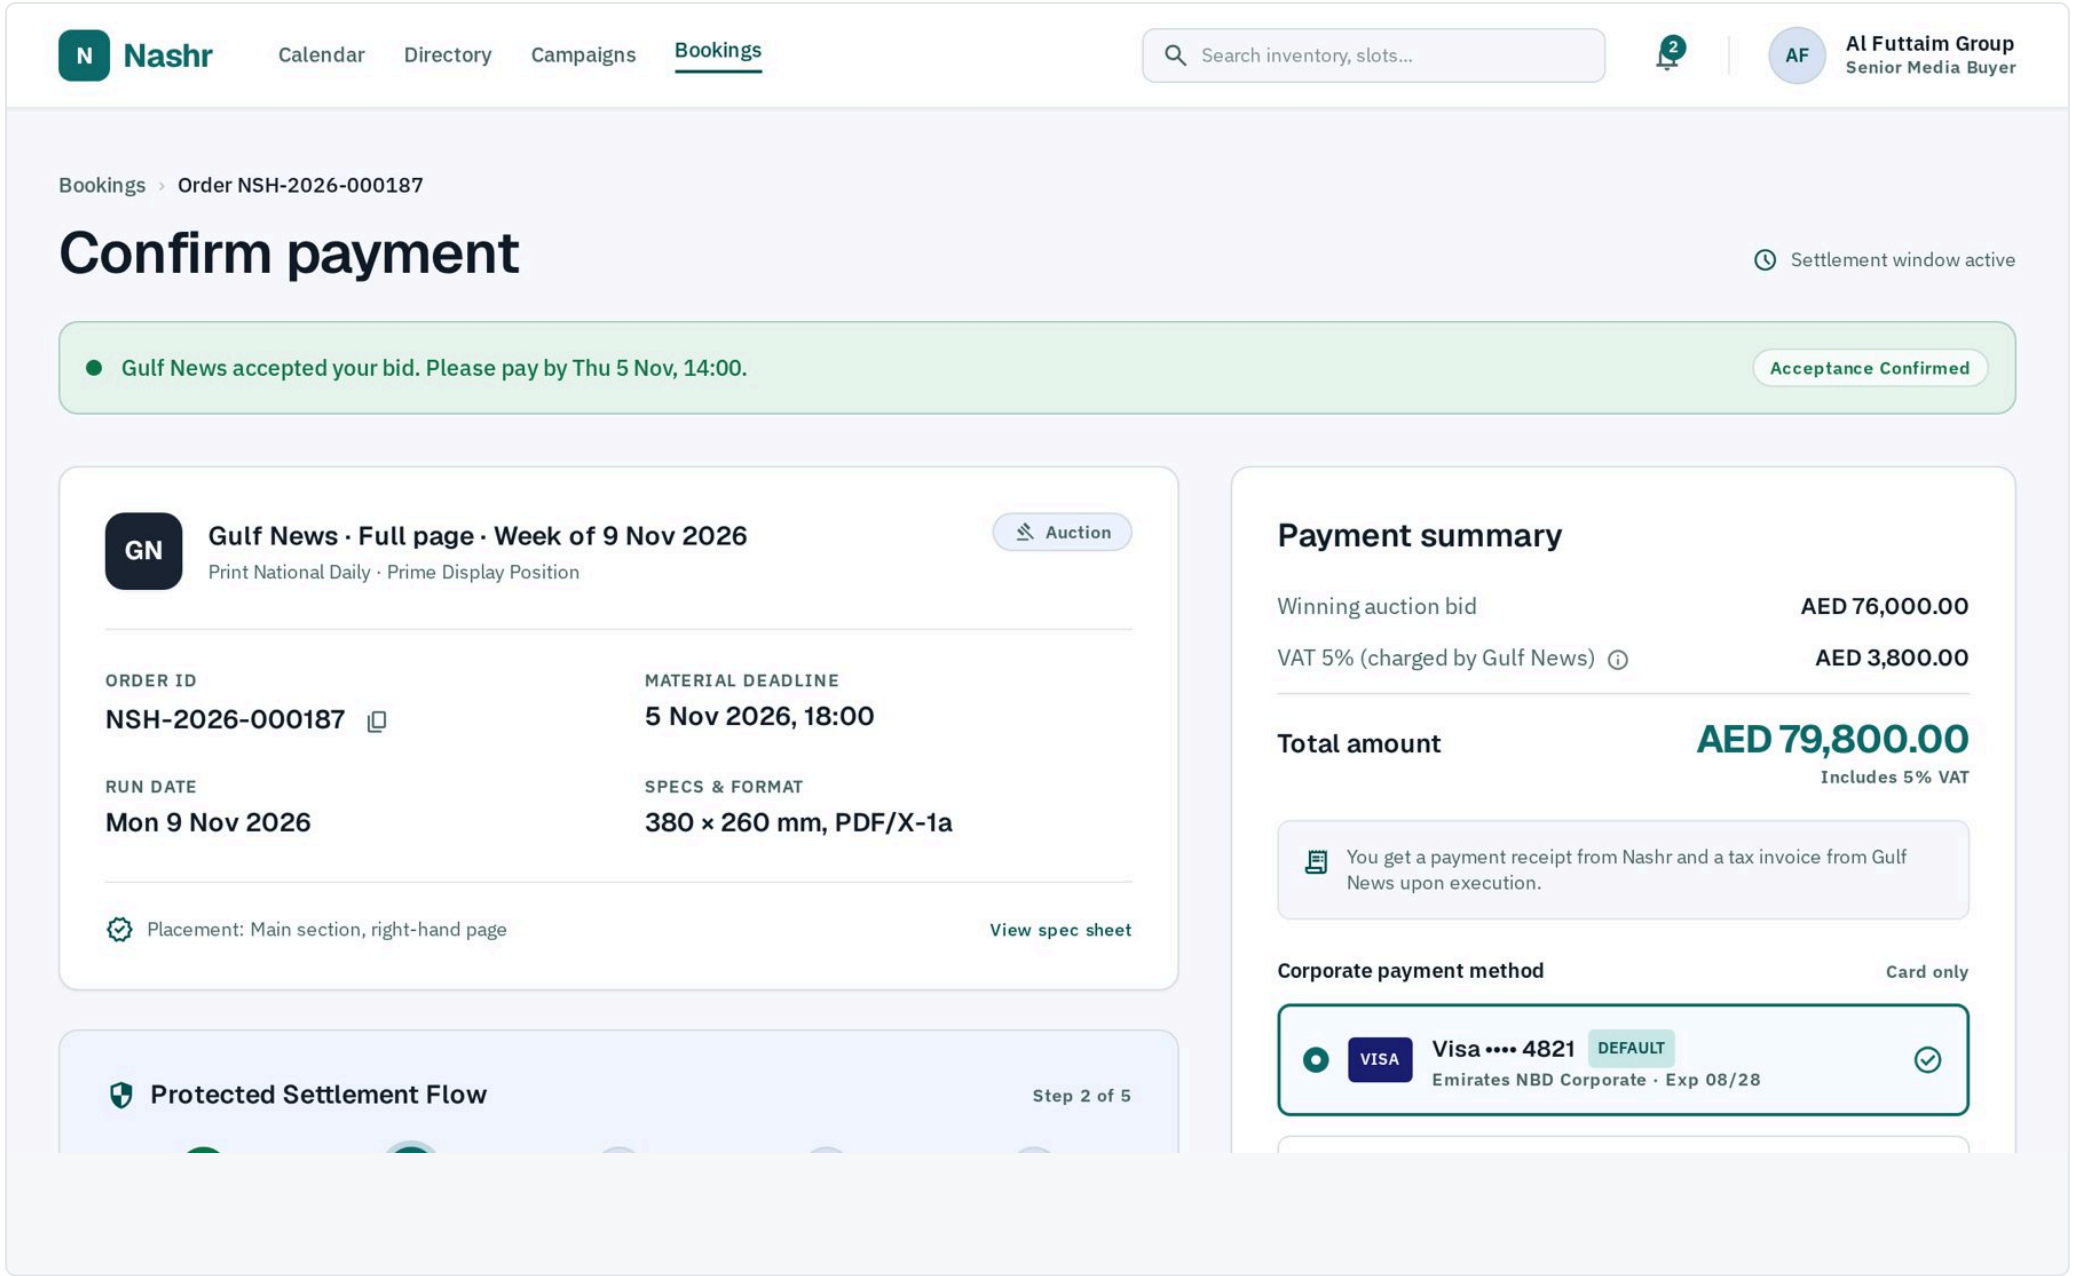

5. Bid drawer

Buyer · Auto-bid with a maximum. No suggested bid or past prices until we have data.

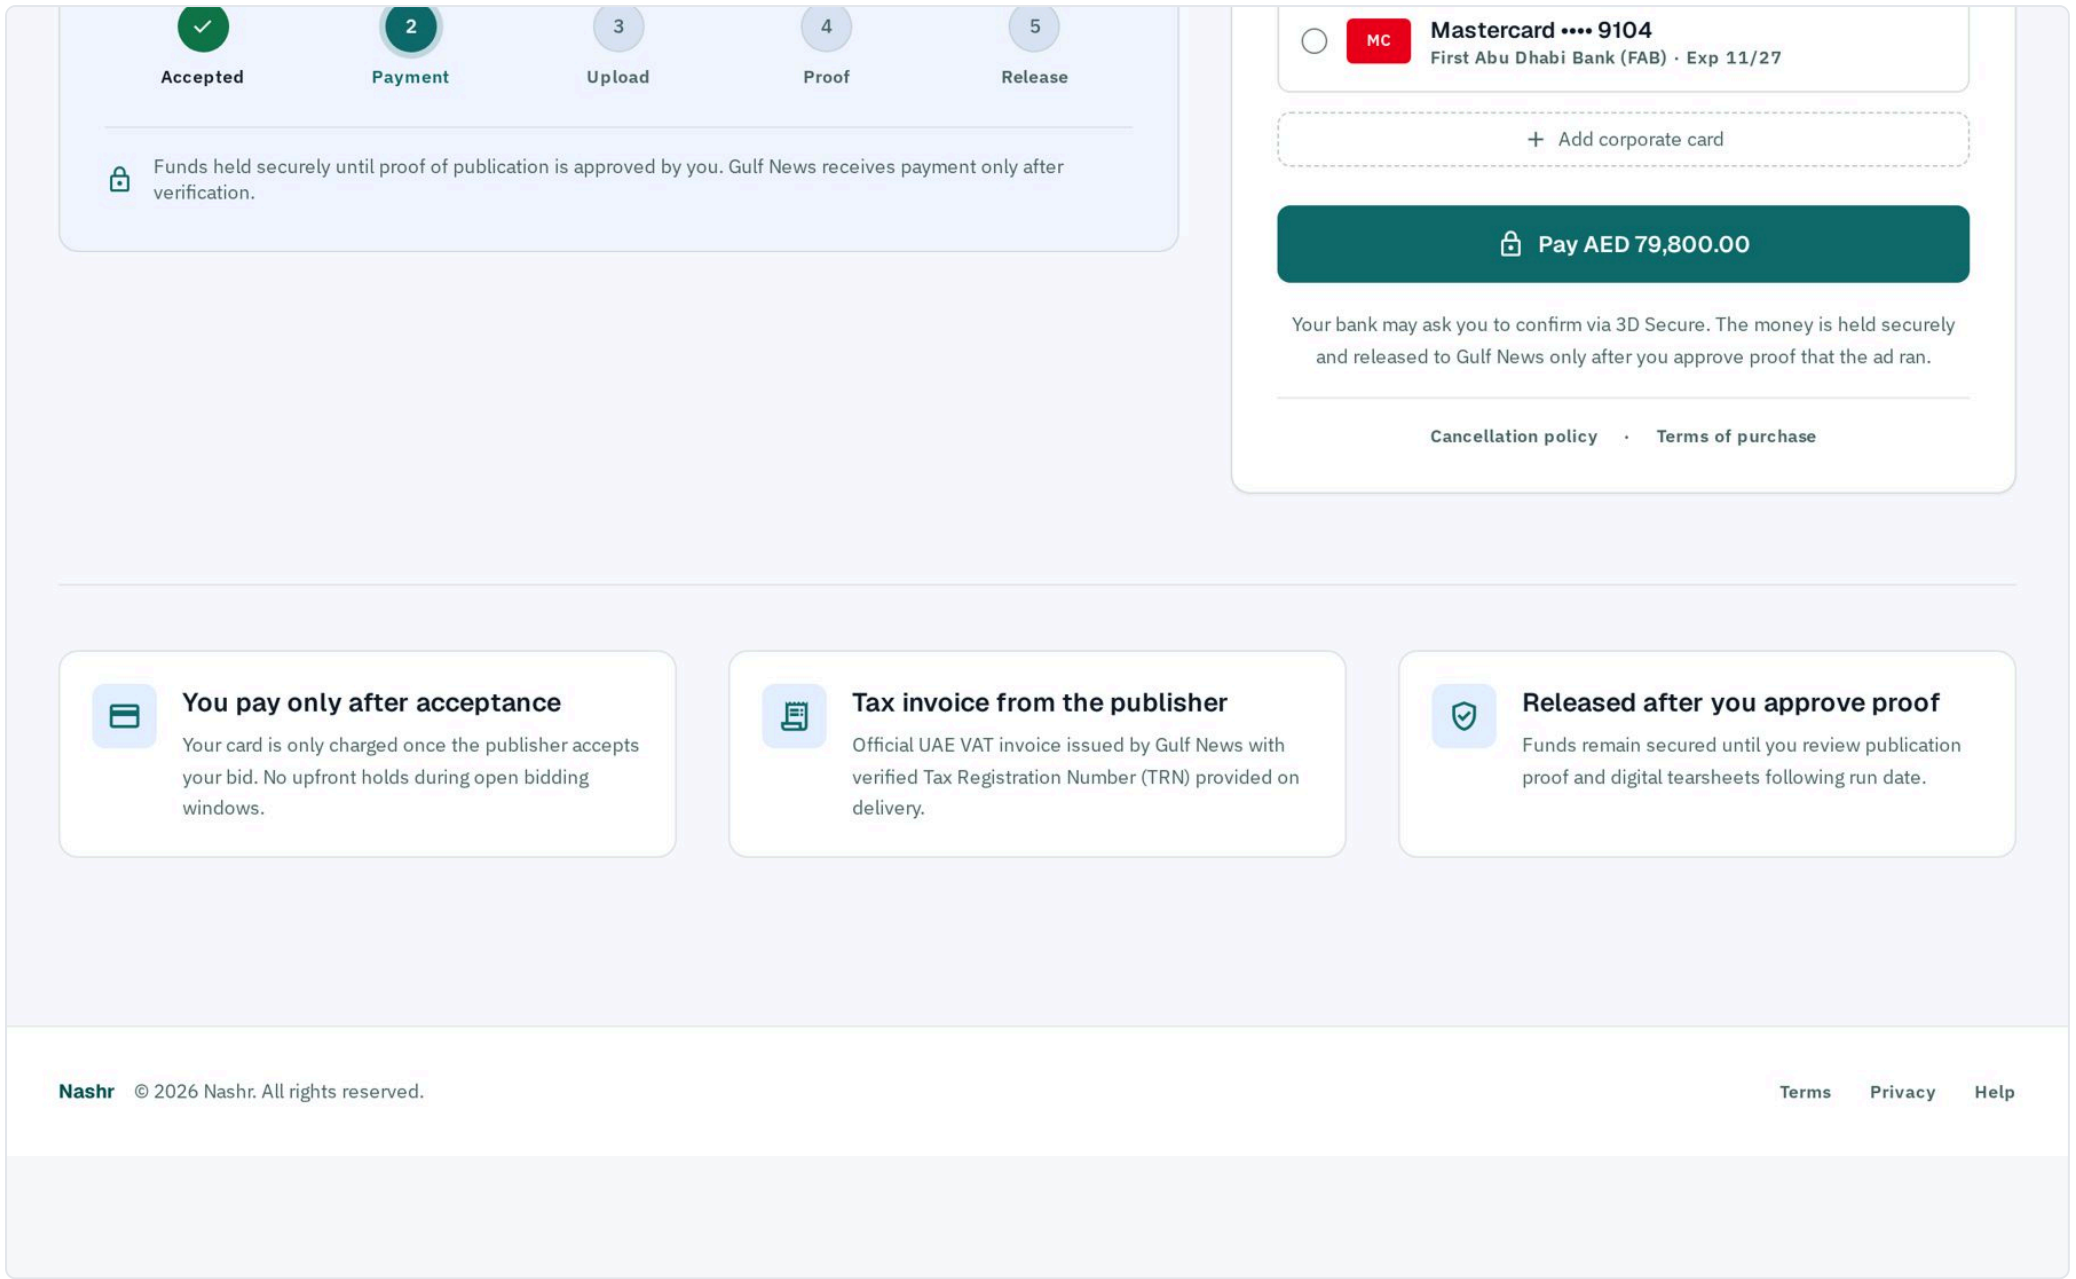

6. Confirm payment (1 of 2)

Buyer · "You'll be asked to pay once the publisher accepts." Receipt from Nashr, tax invoice from the publisher.

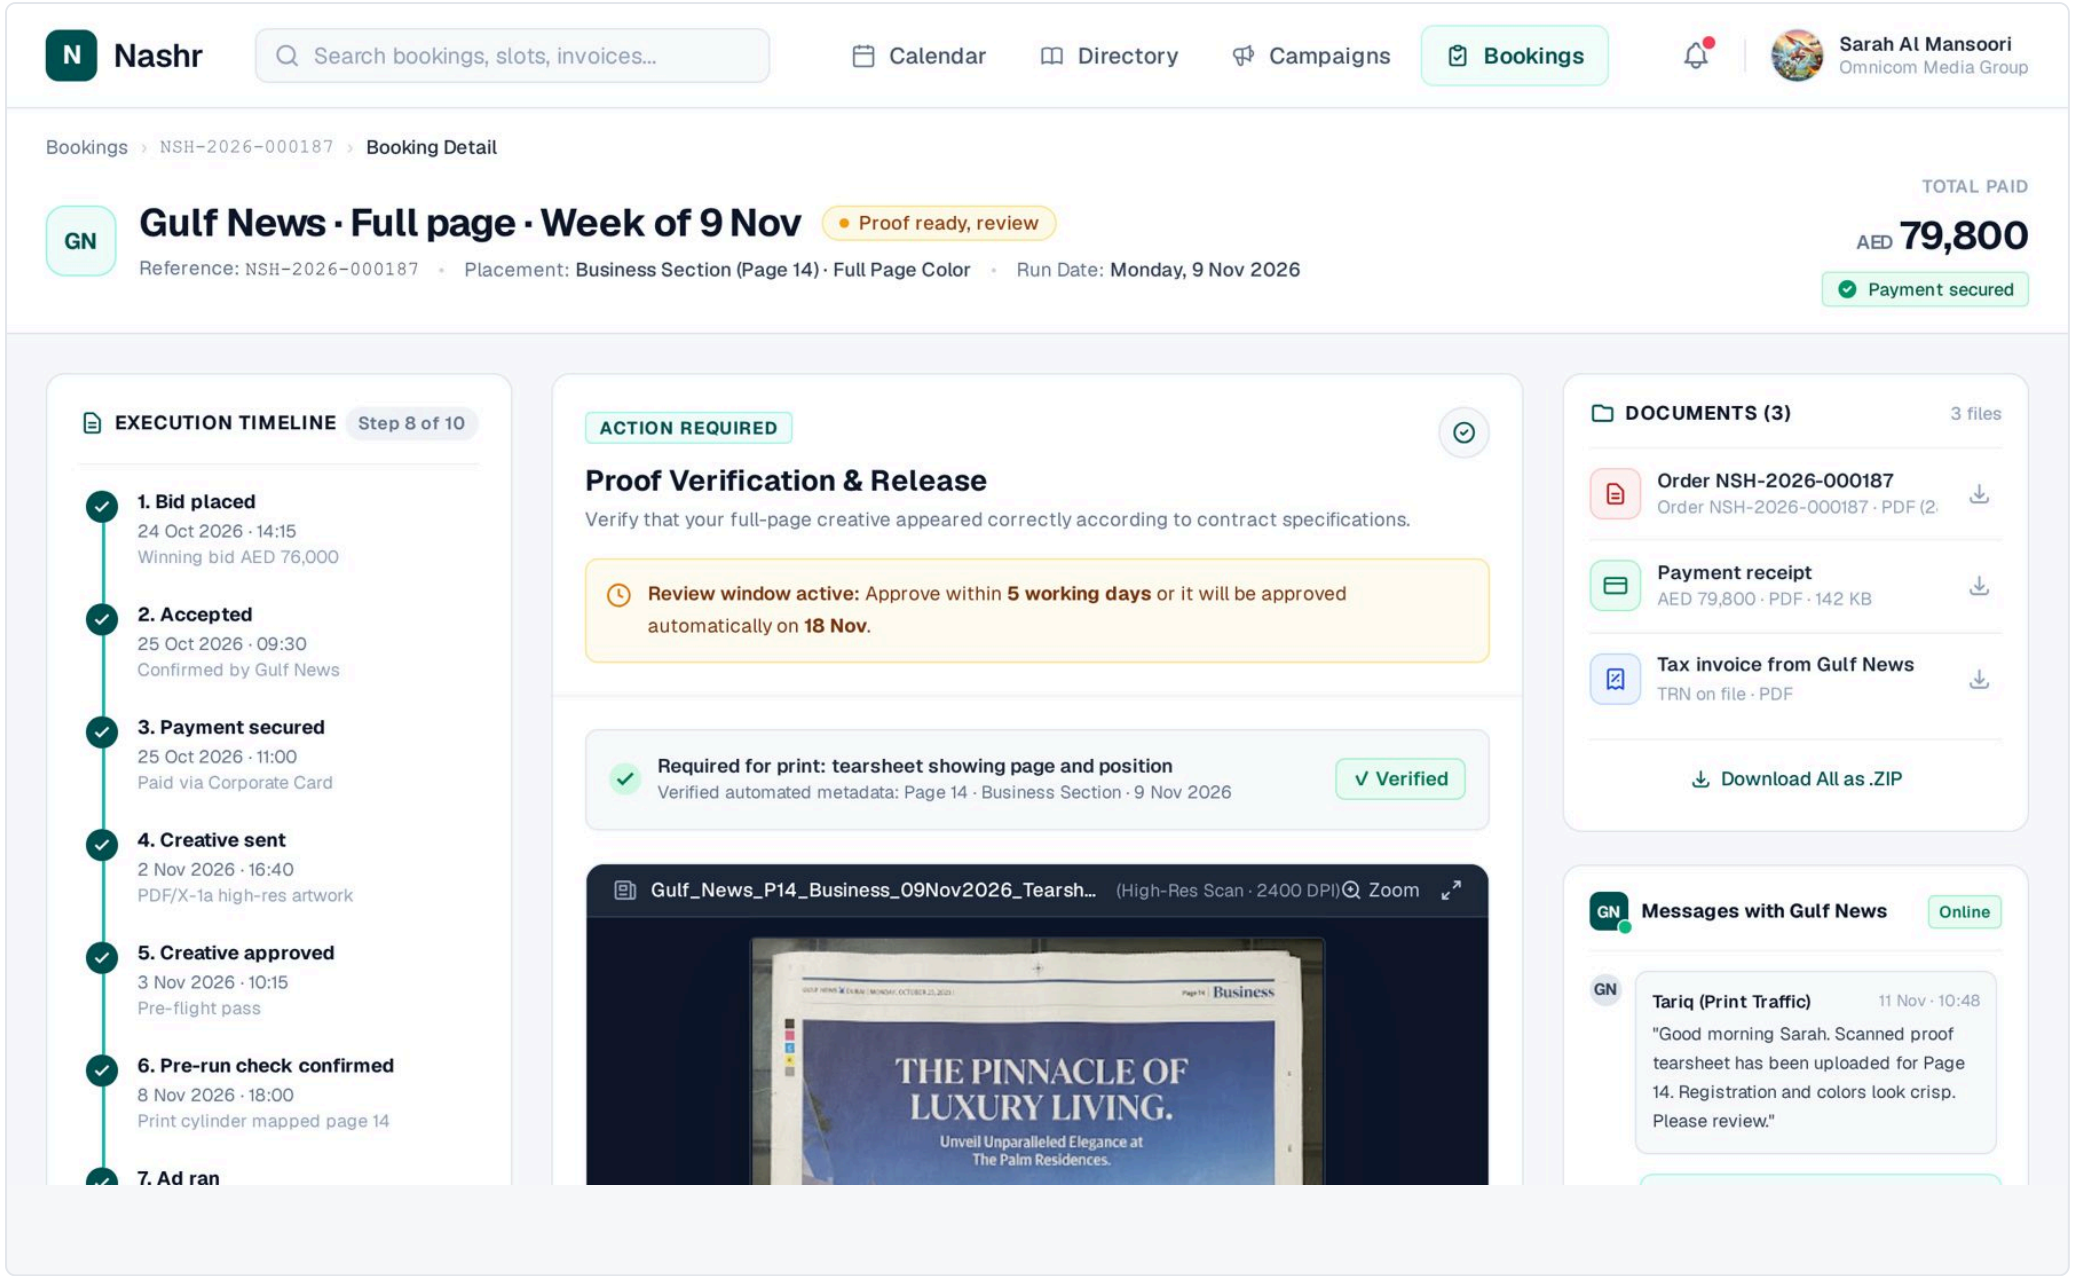

6. Confirm payment (2 of 2)

Buyer · "You'll be asked to pay once the publisher accepts." Receipt from Nashr, tax invoice from the publisher.

7. Booking page (1 of 2)

Buyer · "Order NSH-..." instead of insertion order; no audit claims.

7. Booking page (2 of 2)

Buyer · "Order NSH-..." instead of insertion order; no audit claims.
